

Company; **Utley's Inc**
Web; www.Utleys.com
Position; Mold maker (RTV rubber)

Location; 31-23 61st St.
Woodside,
NY 11377

The Company:

Utley's Inc, is an established family run company specializing in Prototype Development, Fabrication and Model Making. The company is based in Queens, in a 16,000 sq. ft facility with 40 full time employees.

Utley's houses a comprehensive range of services, such as additive and subtractive manufacturing, high speed multi-axis machining, rapid prototyping; RTV mold and casting, assembly and fabrication, finishing, custom color matching and spraying, an in house CAD department supports and facilitates these activities.

The Position:

Utley's is seeking to fill a Full Time, Long Term position of a mold maker. The successful candidate will work as the primary mold maker, making silicone molds, and producing urethane castings.

Duties will include meeting daily to prioritize the current jobs, making fixtures and setting up masters, making molds in various sizes and in various quantities, demolding and preparing the mold, casting using urethanes in various colors and durometers, handing the castings off to the post production department for finishing.

The position is fast paced and typically produce several hundred molds each month. The storing and recording of the molds is also important.

The hours would be 8am to 4.45pm Monday through Friday plus overtime (which is sometimes required early morning or weekend). Overtime is paid after 8 hours each day at 1.5 time rate.

Competitive compensation package including health coverage and 401k, pay will be hourly and commensurate with experience.

The Candidate:

- The candidate will ideally have experience working with urethanes and silicones in a molding and casting capacity.
- Working with smaller complex castings, thin walled parts and models needing to be accurately aligned would be advantageous.
- The candidate must be good at working independently, and communicating with other members of staff.
- The candidate will be expected to carry out the full range of mold and cast tasks, so strength and dexterity are important.
- The candidate should be organized and neat, methodical and rigorous in practice.

Candidate must be a US resident.
